

SUHNER®

**Two all-rounders.
Redefined.**

UWG/UWK 10-R

The two all-rounders

UWG 10-R

UWK 10-R

The UWK 10-R and UWG 10-R angle grinders offer everything that even the most demanding user could want to produce the best results. In addition to the high-performance motors and many other technical features, the machines stand out for their ergonomic design and the ideal placement of the controls. The two all-rounders: optimal results for cutting, grinding, machining, rust removal, brushing or polishing.

Performance information at a glance

Type	Voltage	Power input	Speed rpm	Ø mm	Working spindle	Weight	Mat. no.
UWG 10-R VDE	230 V	1050	4.200 – 10.000	125	M 14	1,9 kg	100035310
UWG 10-R SEV	230 V	1050	4.200 – 10.000	125	M 14	1,9 kg	100035311
UWK 10-R 125 VDE	230 V	1530	4.200 – 10.000	125	M 14	2,6 kg	100035292
UWK 10-R 125 SEV	230 V	1530	4.200 – 10.000	125	M 14	2,6 kg	100035293

Accessories

	Type/Purpose	Ø mm	Working spindle	Weight	Mat. no.
	Protective guard SH SH 125 (grinding discs, finned grinding wheels)	125	–	0,240 kg	100027957
	Wheel guard SH 125 cut (cutting wheels)	125	–	0,289 kg	100027401
	Clamping nut (grinding discs and cutting wheels)	–	M 14	0,059 kg	100046283
	Mounting flange SF (grinding discs and cutting wheels)	–	–	0,050 kg	100045325
	Side handle	–	–	0,100 kg	100027956

Accessories included in delivery

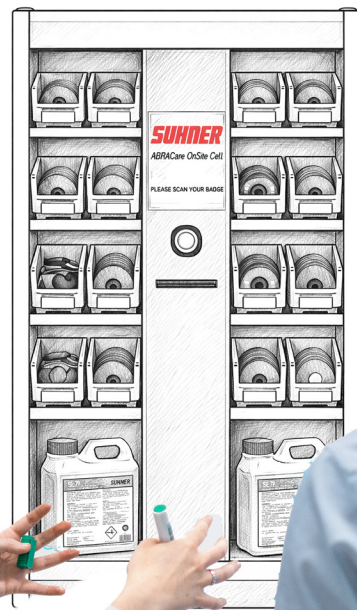

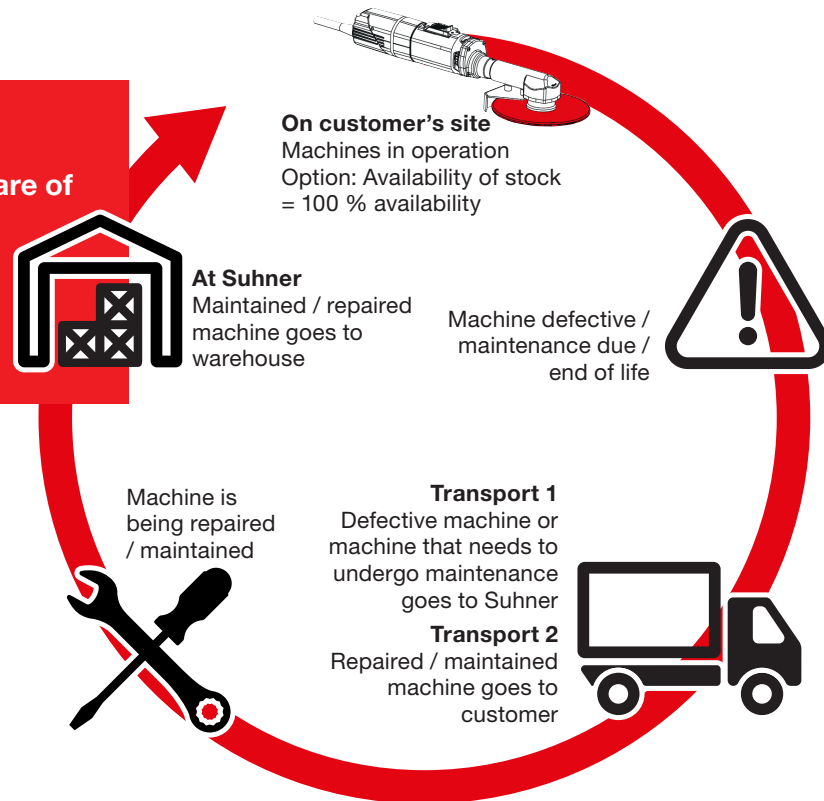

FLEETCare@Suhner and ABRACare OnSite Cell – the comprehensive Suhner rental model.

Your technical expert consultant will provide you with personalized advice.

FLEETCare@Suhner

The machine package that takes care of everything for you!

- 100% availability
- Fixed costs make it easy to plan ahead
- Repair and preventive maintenance
- Expanding expertise with employee training

ABRACare OnSite Cell

The intelligent material dispensing system

- Automatic, demand-driven order triggering
- Inventory management
- Consignment warehouse, no downtime and guaranteed stock availability

SUHNER@Work

The best place to try out our products is at your workplace!

Benefit from our comprehensive process expertise in grinding and abrasive technology. See what's new and discover more effective and more efficient options. Try our products out on your current projects. Find out how ergonomic tools can boost your productivity.
